

25th November, 2013

- Two pupils (Gabriel Vella and Isabelle Enright) attended the EkoSkola, YRE and LEAF seminar.
- First they were given information about the importance of trees.
- Then, at the end of the activity they were given a recycled pot and some soil. With the help of the EkoSkola coordinators they planted some seeds. These seeds will eventually grow into Ġhargħar trees.
- The pupils will share their experiences with the other EkoSkola members during the following meeting and they will speak to the whole school during the morning assembly.
