

Minutes: 26th February, 2014

- The EkoSkola committee designed their own name tags to be worn every day at school
- We discussed why water is lacking, especially in Malta.
- Pupils contributed to the different ways water is being wasted.
- Examples given by pupils were:
 - Leaving water running when washing hands and brushing teeth ...
 - taps are not closed properly and left dripping,
 - rain water is going into the sea and therefore it is being wasted since it is not used for anything
 - When people fill buckets with water sometimes they are filled up to the brim and they overflow
 - Leaking water cisterns

Next meeting 5th March, 2014
