

Minutes: 29th January 2014

During today's meeting the EkoSkola Committee and the Year 1.3 class went around the school putting used plastic bottles in toilet cisterns. The aim of this activity was to help conserve water in toilet cisterns.

- The children filled up their bottles with water and they put the water bottles in the water cisterns. The school's handyman showed the children how to place the bottles in the water cisterns.
- Photographs of this activity were taken and these photographs will be uploaded on the school website.
- During this activity, two pupils from the EkoSkola Committee took readings from the water meter.

Next meeting: Monday 3rd February. Mr Gatt will be present for this meeting.
