

The Making of the Eko Skola Eco Code

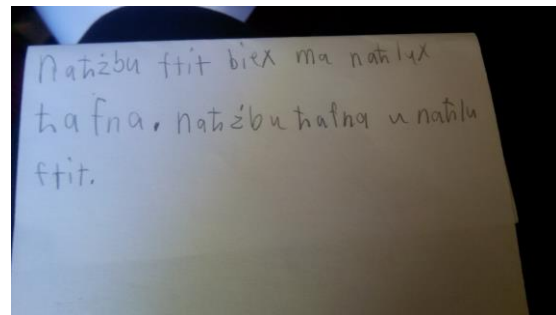

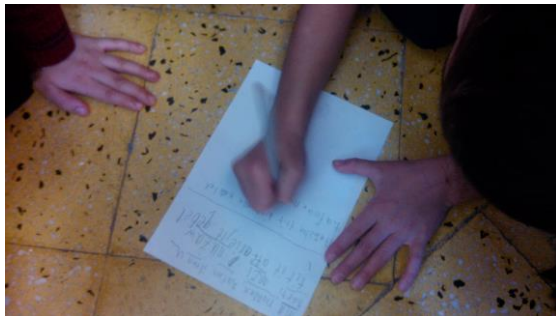

The Eko Skola committee met up to formulate the school's Eco Code.

Pupils were given the words:

naħsbu ffit naħlu biex ħafna ma naħlux qabel

The committee was encouraged to make use of these words to create the Eko Code. Pupils were divided into groups and each group was asked to write a slogan.

The best slogan was decided by show off hands by the members of the committee themselves.
