

## Water consumption between 1/12/13 and 29/1/14

The water meter was read before we began the water campaign. It is estimated that the school used 45.18 units of water per scholastic day.

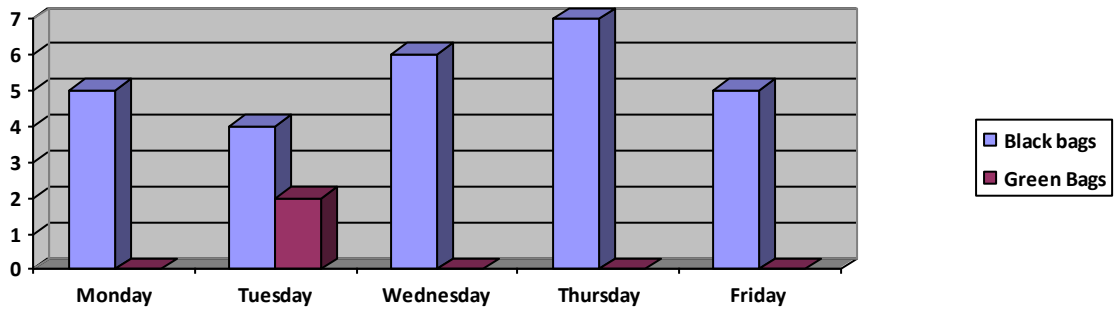

## Water consumption between 29/1/14 and 25/4/14

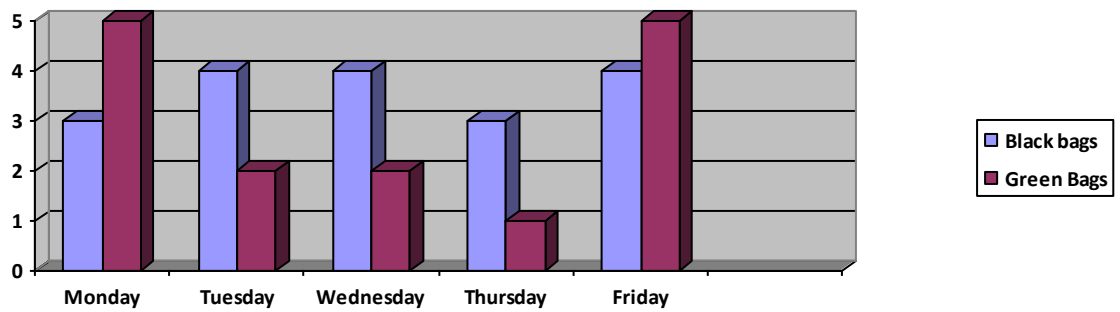

The water meter was read after we began the water campaign. It is estimated that the school used 31.45 units of water per scholastic day.

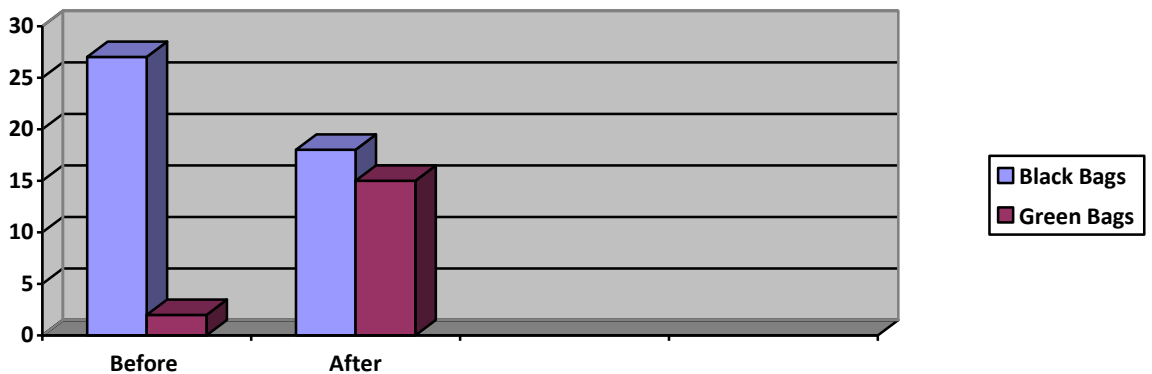

After the Water Campaign the school used 13.73 less units of water per scholastic day.

**Number of bags between 28/1/13 and 1/2/13 before Waste Campaign began.**

**Numbers of bags between 24/3/14 and 28/3/14 after Waste Campaign began.**

**This shows that since the EkoSkola Committee began the Waste Campaign, the school is recycling more and the teachers are reusing used materials.**
