

Socks activities

Matching pairs

1. Ask children to help you sort socks in pairs before putting them back in the drawer after doing the laundry.
2. Get different pairs of socks from everyone's drawers. Put all the socks in a box or a laundry basket and ask children to match pairs. Don't forget to put everything back in place 😊
3. Set up a long washing line with pegs and a washing basket of different socks, so children can find pairs and peg them up. Are there enough pegs?

During all these activities, ask about the patterns, the colours, the size, to whom they belong, etc. You may even count the number of pairs you have. Are there any odd socks left?

Final challenge

How many socks long are you?

Ask all members of your family to lie on the floor. Ask children to measure each person by putting same size socks in a line. Count the number of socks.

Who is the tallest? Who is the shortest?

Ms Angelique Schembri
